

## True Meaning of Modernization

One August day in 2023, the respected Comrade **Kim Jong Un** visited the Kumsong Tractor Factory.

In the room dedicated to education with revolutionary relics, he was briefed on the leadership exploits of President **Kim Il Sung** and Chairman **Kim Jong Il**.

Referring to the importance of the factory in implementing the rural revolutionary programme in the new era, he said he visited it to acquaint himself with the situation of its renovation project.

After a while, he said that farm machine is a decisive factor in freeing farmers from backbreaking labour and specified the measures to improve the quality of farm machines.

After looking round the shop floors of the factory to learn about the renovation project, he said: The result of its renovation should be expressed in producing tractors and other farm machines much favoured by farmers.

As he gave top priority to the demands and interests of the people, he paid close attention to improving the quality of farm machines and implanted in the minds of its officials the true meaning of modernization substantially beneficial to agricultural workers.
