

Unforgettable Day

One midnight in August 2018, the respected Comrade **Kim Jong Un** oversaw the trial run of a prototype trolley bus to be used by the people.

He sat on a seat of the trolley bus and personally estimated its technical specifications and other details. And he said with pleasure: It is really worthwhile to make a wonderful trolley bus and tramcar by ourselves and have them run along the streets carrying the citizens on their way to and from work.

As if picturing the people aboard a new trolley bus running along the beautiful streets in the capital, he said that he was really satisfied and it was the happiest day of the year for him.
